Mentor Report for 2023-24

The PG Department of Computer Applications has established a robust support framework aimed at nurturing student success and 2023-2024 academic growth. Through initiatives such as the Mentor Form, students benefit from personalized guidance and mentorship, fostering a supportive learning environment. Regular tests tailored for slow learners allow educators to identify areas of difficulty promptly, facilitating targeted intervention and support. Furthermore, Remedial Classes provide additional assistance to students requiring further academic support. Continuous monitoring, including attendance tracking, ensures that student progress is closely monitored, enabling timely intervention when needed. In addition, the department fosters strong parent-teacher partnerships by conducting biannual Parents-Teachers Meetings, promoting collaboration and reinforcing discipline. Through these comprehensive strategies, including retention efforts, the department is dedicated to cultivating a culture of academic excellence and student success.
