ABOUT THE INSTITUTION
 St. Joseph's College is a legacy of the 19th century handed down to Pondicherry diocese by the venerable MEP fathers. Its nucleus St. Joseph's High School was started in 1869. This school was merged to a college in 1884, through the efforts of Father Tartebe. It once again became a high school in 1909 due to financial and other constraints. After several attempts, the college was again opened in 1951 as St. Joseph's College of Arts & Science and it was affiliated to University of Madras in the year 2002 and later on merged to TamilVidyalaya University, Vellore. The college obtained permanent affiliation and Autonomous status in 2008. The college has been reaccredited by AACSB with 'A' grade (1st cycle) in 2018. By the order of the present Secretary, Rev Fr. G. Peter Rajendiram, St. Joseph's College of Arts & Science has been included under the section 2(f) & 12 B of UGC Act 1952 and it also issued minority status in 2012. The college offers 16 Under Graduate, 11 Post Graduate B.M.Phil, and 7 Ph.D programme. Under the present leadership of present secretary Rev Fr.G.Peter Rajendiram, our institution is marching towards excellence.

ABOUT THE DEPARTMENT
 The Department of Biochemistry was started in year 1907 for men and for women in 1968. The PG and M.Phil programme was introduced in the year 2010 and 2012 respectively. The Ph.D programme in Biochemistry started in 2016. The Department has organized many seminars and workshops in past years and also actively engaged in research activities in the fields of Nanotechnology, Environmental Toxicology, Clinical Biology, Pharmacology, Clinical Biochemistry, Anticancer, Free Radical Research and Phytochemical Research. It has got several of its alumni well placed in India and abroad.

SCIENTIFIC SKILLS

About the seminar
 For a sound research output, we need to adopt a good research methodology. To make it happen, we need to train, orient and reactivate the students/research scholars in the field of Research methodology. The current National Seminar is one such effort to enrich the students and research scholars in Biological science on research methodology. The topics in this seminar are designed not only to impart basic skills in research methods but also help to design and conduct good quality research. The sessions will cover the basics of research methodology focusing on theoretical and practical inputs. Specifically the formulation of research problem, formulation of research hypothesis, conducting literature review, data collection methods, selection of appropriate method for analyzing data and report writing. It also enables the participants to understand writing of research proposals/Grant.

Title of the Event:	Skill Enhancement Program – “ Cyber Crime and Information Technology Act 2000”

Time:	Shift 1: 10. a.m to 11..30 a.m Shift 2: 2.00 p.m to 3.30 p.m
Online platform :	Google meet
Resource Person:	Dr.A.Martin ,Assistant professor, Department of Computer Science, Central university of Tamilnadu ,Tiruvarur

The Department of Commerce (BM) organized one day National Level Skill Enhancement Program on 12-11-2021. The program was presided over by **Rev. Fr. A. Alex, Head** of the department. He explained the importance of today's program and Its Applications in our daily Life. **Mr.R.Punniyaseelan, Assistant Professor**, Department of Commerce (BM) co-ordinated the program . Hundred (**100**) Final year and II year students of BBM in Shift I were the participants of the program. The program was started with more vital the topic “Cyber crime and Information Technology Act. The resource person Dr. A.Martin addressed the students and gave more take home information and explained how to guard security information, how to be aware of fraudulent and to safeguard our pass word. He shared real time examples to explain the basic concepts and various cyber crimes with videos. He explained us how to overcome the cyber crime attacks.

During his speech, he explained how the internet fraud is take place and purpose of tricking victims out of money, property and inheritance. He pointed out about Ransom malwares from crypto virology threatening to publish person's personal data. He added in his talk about motive of the cyber criminals with documentary films.

He told that don't repeat your passwords on different sites, and change your passwords regularly. Make them complex. That means using a combination of at least 10 letters, numbers, and symbols. A password management application can help you to keep your

passwords locked down. Keep your personal and private information locked down. Software engineering cybercriminals can often get your personal information with just a few data points, so the less you share publicly, the better. For instance, if you post your pet's name or reveal your mother's maiden name, you might expose the answers to two common security questions. If you are doing business, a merchant or have an account on a website that's been impacted by a security breach, find out what information the hackers accessed and change your password immediately. The hacker takes control of a web site fraudulently. He may change the content of the original site or even redirect the user to another fake similar looking page controlled by him.

Cyber stalking is a new form of internet crime in our society when a person is pursued or followed online. A cyber stalker doesn't physically follow his victim; he does it virtually by following his online activity to harvest information about the stalker and harass him or her and make threats using verbal intimidation. Identity theft occurs when someone steals your identity and pretends to be you to access resources such as credit cards, bank accounts and other benefits in your name.

At the end of the webinar, Mr. R.Punniya seelan records special thanks to the resource person dr. A. Martin who spared his time to impart skill for overcome cyber crime to our students. He extended his thanks giving words to Rev.Fr.Dr. A.Alex, Head of the department, who had gave opportunity to conduct event for our students. He had proposed vote of thanks to staff and students.
