Report on Industrial Visit to Integral Coach Factory (ICF), Chennai.

The Department of Business Administration (CA) organized one day industrial visit to **Integral Coach Factory (ICF), Chennai** on 11th August, 2023 (Friday). 50 students from III BBA(CA) and II BBA(CA) Shift I participated in the visit. Mr. M. Om Prakash, Assistant Professor, Department of Business Administration (CA) accompanied the students for the industrial visit.

Students at the Integral Coach Factory venue.

Objectives of the visit:

- To expose the students to the large scale industrial operation.
- To learn about the process of railway coach making, costing factors and the human resource management.

The session started with an orientation session about the Integral Coach Factory and the process involved in the railway coach making. The students were taken to the assembly bay where the field guide explained about the product design, process and product layout, production planning and control (PPC), batch production, routing and scheduling. The students witnessed the overall process from the wheel base assembly to the final despatch stage. The guide insisted upon the various quality and safety measures undertaken by the manufacturer to ensure the quality and safety standards. He also explained about the commissioning of different types of coach and the cost involved in the coach manufacturing. The session extended to the branding of various types of coaches being manufactured at the facility which include India's most advanced Vande Bharat train coach, conventional passenger compartments, electric train and metro train compartments. The visit served an unique learning experience to the students.

Report on Industrial Visit to

Kodaikanal Solar Observatory, Indian Institute of Astrophysics (IIA)

The Department of Business Administration (Computer Application) organised one-day industrial visit to Kodaikanal Solar Observatory, Indian Institute of Astrophysics (IIA), Kodaikanal on 04th March, 2024. 58 students from I & II BBA(CA) Shift II participated in the visit. Dr. M. Monika and Dr. A. Johnsi Gloria, Assistant Professors in the Department of Business Administration (Computer Application) accompanied the students for the industrial visit.

Students observing the functioning of solar observatory.

Objectives of the Visit:

- To give a cross major exposure about the functioning of solar observatory.
- To understand the kind of research activities and the key technical insights about the solar observatory.
- To educate the students about environment consciousness and responsibility, global warming and the negative effects of deforestation.

Brief note about the visit:

The students and staff members are received by the public outreach incharge and assigned a observatory field officer to explain about various facilities and the functioning of the solar observatory. He explained about the study phenomena associated with the sun. The Sun, being the closest star to earth, allows a unique chance to study stellar physics with high-resolution. The observatory conduct research about sunspots, magnetic field activity (through solar dynamo), solar flares, coronal mass ejections, differential rotation, and plasma physics. Students witnessed the full disk image of the sun through a twin telescope mounted on a single equatorial mount, spectroscope & spectrograph , full-disk photo-heliograph. The students finally visited the astronomy museum at the observatory. The visit was a unique learning experience to the students to understand the functioning of solar observatory.

Learning Outcomes:

The students were given a wide knowledge about the functioning, kind of research activities and the key technical insights about the solar observatory. Beyond technical exposure the students were advised and encouraged to remain environmentally responsible, preserve plant and water resources, reduce carbon footprints and to take measures to reduce global warming. They are also suggested to plant and protect as many trees in their lifetime. The students are highly satisfied with the cross major industrial visit to the solar observatory.

Report on Industrial Visit to Doddabetta Tea Factory & Tea Museum, Ooty.

The Department of Business Administration (CA) organised one day industrial visit to Doddabetta Tea Factory & Tea Museum, Ooty on 17th March, 2024. 50 students from III & II year BBA(CA) Shift I participated in the visit. Mr. M. Om Prakash, Assistant Professor in department of Business Administration(CA) accompanied the students for the industrial visit.

The manager of the factory received the students and deputed a guide for our students to explain the process in the tea factory. The guide took our students inside the factory and explained the process of tea making from the plucking stage to packaging stage.

Students observing the process of tea dust making at the Dodobetta Tea Factory, Ooty.

Objectives of the Visit:

- To give practical exposure to the manufacturing process of Fast Moving Consumer Goods (FMCG) like tea dust and chocolates.
- To educate the students about the multiple entrepreneurial opportunities existing with the most profitable FMCG products like tea dust and chocolates.
- To educate, how to develop their own brands by procuring finished products from the factory.

Brief note about the visit:

The process includes picking of fine fresh tea leaves, withering, rolling, oxidizing, drying, filtering and packing process. The presentation includes the marketing opportunities across India and export to various countries. The session extended to the branding of various tea products. The categorisation of different quality of tea dust is also explained. The students are able to understand the manufacturing process of tea leaves, machinery used for processing, packaging and supply chain process. The students then visited the chocolate factory within the premise. They also witnessed the fresh chocolate making process. The students are also guided about the marketing process of the factory.

Learning Outcomes:

The students are exposed to the manufacturing process of Fast Moving Consumer Goods (FMCG) like tea dust and chocolates. The students are educated to understand the multiple entrepreneurial opportunities existing with the most profitable FMCG products like tea dust and chocolates. They are also educated, how to develop their own brands by procuring finished products from the factory.
