CUDDALORE

Department of Commerce (Bank Management)

Title: Field Visit

Date: 23.02.2024

Place: Aavin, the Salem District Co-operative Milk Producer's Union Ltd

The Department of Commerce (Bank Management) organized a one-day Field visit to the Aavin co-operative Milk Producer's Union Ltd, Salem on 23th February 2024. 73 students from I BBM (Shift-I) participated in the visit. Mr. A. Domnic Xavier, Assistant Professor in the Department of Commerce (Bank Management) accompanied the students for the Field visit.

The manager of the factory received the crew and deputed a guide for our students to explain the process in the Milk products. The guide took our students inside the factory and explained the process of Milk and Dairy products making from the Milk stage to the packaging stage.

The Company produces a wide range of products, including Milk, Butter, Yogurt, Ice -cream, Ghee, Milk Shake, Tea, Coffee, and Chocolate, among other goods.

Objective of the programme:

1. To obtain extra knowledge about the diary center.
2. To know about the functions and activities of Aavin.
3. To know about the process of a diary product.
4. To know the waste water management in the diary product.

Outcome of the programme:

We have started this field visit to know about Aavin milk processing and ETP (Effluent treatment plant). We have observed how to treat the milk, produce the related products, quality materials, and ETP management.

Feedback from the students:

I was able to understand and learn different process and methodologies followed in different units which give me an idea for my further exploration.- Krishna Raj J (A23BBD30)

This visit fed me with the knowledge of the packing and storage methods followed. - Nandakumar S (A23BBD38)

I had a real time experience by visiting the industry where I learned about the different dairy products which I meet in the everyday market. – Thiruvateeswaran Y (A23BBD63)

DEPARTMENT OF COMMERCE (BANK MANAGEMENT)

Title: Field Visit.

Date: .27.03.2024 (Wednesday)

Place: Hatsun Agro Company Private Limited , Salem

The Department of Commerce (Bank Management) organized a one-day Field visit to Hatsun Agro Products Limited, Salem, for first-year students. This visit was part of their academic curriculum. The number of students for the visit was 57. The tour was accompanied by Dr. G. Bhuvanewari, Assistant Professor, Department of Commerce (Bank Management).

The HR department had laid down some of the previous instructions regarding how one should behave inside the premises of the visit—our day started by entering the conference room, where we were supposed to watch a 15-minute video presentation based on the overview of the processes, machines, and units of Hatsun. We were exposed to their various products, such as ice creams, Arokya Milk, Hatsun curd, Hatsun Paneer, Hatsun Ghee, Hatsun Dairy whitener, and Ibac, now household names. The most crucial business activity for the company is to deliver quality products to its customers. They have a technologically advanced system that operates according to time-based business processes in all their 16 plants. After a brief introductory video, we entered the hygiene room. Inside the room, we were oriented to the importance of hygiene and security measures. We were given safety jackets; our hair was covered to maintain hygiene, and all other requirements where the standard of hygiene is very high, as is followed as an essential part of the daily routine of the employees. Next, we were shifted to the ice cream packaging section, where the entire process, along with human resources, was carried out with the help of mechanical packaging and grading in the company. The quality assurance machine effectively segregates the harmful products from the good, and therefore, the quality product is dispatched to the customers. The practical techniques of printing the date of manufacture and expiry were also learnt from them. The visit successfully achieved its objectives, providing students with a practical and enriching learning experience.

Objectives of the Program:

1. To infuse in students an applied feel of the working of business operations and management theories
2. To aid students in getting in touch with industry professionals
3. To sensitize the students toward quality control, safety measures, and hygiene practices in a manufacturing setup

Outcome of the Program

The students learned about the practice uses of management concepts very deeply and could realize the significance of quality control, safety, and hygiene in a manufacturing environment. The students could engage with industry professionals and understand the first-hand challenges of the organizations within the business environment

Feedback from Students:

1. The industrial visit to Hatsun Agro Products Limited was an invaluable experience that enriched my understanding of dairy production processes. The presentation provided a comprehensive overview of the company's operations, particularly their commitment to quality control and hygiene standards. (A23BBE21 MADHUBALA. N)
2. Participating in the visit to Hatsun was truly enlightening. I was particularly impressed by the extent of technological advancements utilized in their production facilities. Observing the packaging process in the ice cream section was a highlight, as it illustrated the application of management theories in a practical setting. (A23BBE36 RAGAVI. S.M)
3. The visit to Hatsun Agro Products Limited significantly impacted my learning experience. I found the focus on hygiene protocols particularly impressive, as it reinforced the importance of maintaining high standards in food safety. (A23BBE44 SHAHIN. S)
