## Report on Field visit to GNR Instrumentation Center

**Report No** : /2023-2024

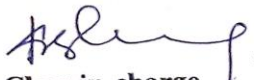

**Report Title** : Field visit to GNR Instrumentation Center, Madras University, Chennai.

**Date** : 18.03.2024

Our III year UG students (Shift I) 27 in Numbers along with two staff member Dr. K. Shagirtha and Dr. R. Ramakrishnan went for a field visit to GNR Instrumentation Center, Madras University, Chennai. The students are taken to different instrumentation facilities available in the institute, such as HPLC, HPTLC, Microscope, LCMS, PCR, RTPCR and high speed centrifuge. The working and applications of different instruments were explained by the technical staff of the institute. The students were more interested and gained more knowledge about instruments and its usage.

### Students visited GNR Instrumentation Center

**Report No:**

**Report Title:** Field Visit

**Date:** 24.06.2023

Our II year UG students (Shift I) 41 Numbers and two staff members Dr.S.Silvan & Mr.A.Lawrance went for a field visit to S.S.S. Organic Farm, Pooranankuppam, Puducherry on 24.06.2023. Mr.S.Poogundrane, proprietor, S.S.S. Organic farming, gave brief information about Integrated Organic Farming, biogas production, vermicomposting, apiculture, roof gardening and multi-cultivation methods. The students were actively participated and more interested to learn apiculture and other garden techniques for their employability. They also gained more knowledge about the organic farming benefits and its usage.

**Mr.S.Poogundrane, Proprietor, S.S.S. Organic farming, to give brief information about Integrated Organic Farming.**

**Report Title:** Field visit to Centre of advanced study (CAS) in Marine Biology

**Date** : 9.1.2024

Our II year UG students (Shift II) 48 Numbers and one staff members Ms.R.Anitha went for a field visit to Centre of advanced study (CAS) in Marine Biology, Parangipettai on 1.2.2024 at 10.00 am. The students visited the museum which is an excellent collection of flora and fauna. The library has different text books, journals and research thesis and it is modernly equipped with safety scanners. The students also visited clinical laboratories where they gained knowledge about usage of different analytical instruments such as HPLC, HPTLC, Microscope, LCMS, PCR, RTPCR and high speed centrifuge Dr.Lennin, Senior Researcher , give brief information about history, tissue culture facility, plankton identification, aquaculture ponds and their maintenance. The students were more interested and gained more knowledge about marine organism, instruments and its usage.

**Report Title: Field Visit**

**Date: 22.2.24**

The PG & Research Department of Biochemistry organized a field visit to PONALIT, KVK and Rajiv Gandhi Veterinary College, Puducherry on 22<sup>nd</sup> February 2024 for the First year UG students. Fifty one students along with one staff Mrs.S.Seethalakshmi visited these places. In PONALIT, Mr. Sivakumar, Asst. Manager explained the process involved the production of milk and milk products. He also highlighted the value added products produced from milk like ice cream, kulfi, and ghee. In the afternoon, we visited KVK, Pondicherry at 2:00 PM. Mr. Prabhu, administrative Officer, explained various kinds of herbal plants and their significance. Mr. Narayanaswamy, Gardner, gave brief description about various flowers like rose, hibiscus and jasmine plants. In the evening, we visited Rajiv Gandhi veterinary College, Pondicherry at 3:30 PM. Dr. Senthamizahselvan and Dr. George lead us to various labs like anatomy, pathology and biochemistry. They explained functions and applications of RT-PCR in their lab. Finally, we thanked them and departed to our college at 4:30 PM. It was pleasant and highly informative day for the students.

### Feedback from the students

1. I learned and got more information about various herbal plants and its applications Sajina MI (A23BCE38).
2. This field visit was very useful and I know about the process involved in the production of milk products Mercy Catherine S (A23BCE28).
3. I gained more information about RT-PCR in the Biochemistry lab Janaki S (A23BCE17).
4. I thank for our class teacher and Head of Department to arrange this wonderful field visit (Vishnupriya A23BCE50).
5. I enjoyed the field visit (Prithika S A23BCE55).

<b>Report No</b>	2023-2024
<b>Report Title</b>	Field SKM natural honey, farm house located in Chinna Pagandai, Panruti, Tamilnadu.
<b>Date</b>	01.03.2024

PG & Research Department of Biochemistry, St. Joseph's College of Arts & Science have organized a field visit on 01-03-2024 for our I BCD students (52 Boys) to visit the SKM natural honey, farm house located in Chinna Pagandai, Panruti, Tamilnadu 607112. Students attended the regular class till III hr and started with the class mentor Dr.R.Ramakrishnan and reached the farm in Chinna Pagandai by 2.00 PM. Mr. Selvakumar Gnanaguru, Kvic Master Trainer (Khadi and Village Industries Commission), SKM Natural Honey and other products in apiculture., explained the role of Honey bees and other insects in agricultural development for pollination. He explained methods followed in the apiculture field and gave hands-on training to handle the honey bees. Moreover, programme trainer also guided the way of harvesting the honey from comb without killing the honey bees and motivated the students to carry the Apiculture and agriculture in the simultaneous manner for the better profit experimentally in the farm yard. Students from the I BCD enthusiastically participated in this programme and learnt the steps followed in the apiculture with live models in the field and rogramme was ended at 3.30 PM.

### Feedback

1. Krishna V (A23BCD21) from I B.Sc., Biochemistry told that, "I have learned that the medicinal values of apiculture products and I have seen naturally from this visit.
2. Ram kumar R (A23BCD37) of I BCD stated that, he learnt that the apiculture is one of the lucrative jobs he will practice in his agricultural field.
3. Suman P (A23BCD44) quoted that "I came to know that importance of insects in agricultural benefits and he will not disturb or kill any insects in future".
